NOTICE: When the Maryland State Lottery Agency processes a claim, it asks the person seeking to claim the lottery prize for certain information. Disclosure of a Social Security Number (SSN) or Individual Tax Identification Number (ITIN) to claim a Maryland Lottery prize is generally voluntary, but failure to provide it may delay or prevent the processing and payment of the claim. For prize claims over \$600, the Social Security Code, the Internal Revenue Code, and the Maryland Tax-General Article authorize and require the Lottery to have the claimant furnish his or her SSN or ITIN for tax reporting purposes. In addition, for prize claims over \$5,000, these statutes require the Lottery to withhold federal and state taxes related to these winnings.

The Lottery also collects SSNs and ITINs in order to comply with State laws related to the interception of prize winnings for unpaid child support, criminal restitution, and other debts owed to a State agency or other governmental entity, as well as to validate and process claims pursuant to the Maryland State Lottery Law and the Lottery's rules and regulations. More information about statutory requirements is on the Lottery's website at www.mdlottery.com.

A person who gives the Lottery personal information has the right to inspect, amend, or correct this personal information, which is not generally available for public inspection without the person's written consent. The Lottery does not transfer personal information or make it available to any other entity, except to certain contractors working with the Lottery who may need the information to perform their services to the Lottery; as required by law to various federal and state government agencies; and, for enforcement of criminal laws, to law enforcement agencies.
